

New perspectives for your products.

Forget the limitations imposed by conventional hinged or sliding doors. With the new HUWILIFT range of fittings you can now offer your customers completely new solutions. Whether folding, sliding or swinging – solutions previously only known in the kitchen are now also possible in the bathroom.

The advantages of the new generation of door and flap fittings in a nutshell:

- Modular principle: All three versions have the same basic construction
- Suitable for a wide range of different door and flap weights
- Flexible installation and stocking of the fittings
- Time-saving through fast and simple installation and adjustment
- Only one basic fitting for all furniture items

HUWIL Invented for you.

As a leading supplier to the furniture industry, HUWIL develops innovative system solutions for their customers, enabling them to implement their own ideas optimally and economically. Whether functional fittings or locking systems – HUWIL always convinces with new developments that are based on customers' requirements.

Our product portfolio:

- **Furniture locks:**

HUWILIFT.

The innovative range of bathroom furniture fittings.

With the patented HUWILIFT range of fittings, you can now also use the innovative HUWIL technology for overhead bathroom cupboards. This is made possible by the compact design and the small installation depth. Whether folding, sliding or swinging – the new generation of HUWILIFT fittings always provides the optimum solution.

The advantages:

- Particularly smooth operation
- Ergonomic sequence of motions
- Simple adaptation to different flap weights
- Secure support of the flap in any position
- User can adjust the flap to his/her individual operating height
- Only one basic fitting for left and right sides
- Ideally suited for individual solutions

The system for every possibility

HUWILIFT fittings are available for all cupboard heights and door/flap weights. A few standard sizes are:

- 600 mm - 23 kg maximum weight
- 720 mm - 20 kg maximum weight
- 800 mm - 17 kg maximum weight

Of course, we will also comply with special requests.

The complete HUWIL range for the bath area.

When it comes to fittings and locks, HUWIL is first choice. Innovative products for economical and time-saving installation, with top quality and long service life.

HUWILIFT-duo Flap supports

Self-explanatory adjustment, convertible to a flap brake holder, simple clip-on mounting.

HUWILIFT-maxi Flap supports

For light, medium, and heavy flaps – secure support of the flap in any position.

monofix Assembly fittings

Without connecting pins – simply insert, clamp, finished.

high-style Decorative fittings

With stylish surface finishes in polished chrome, stainless steel look, and RAL 9006.

Sliding door systems

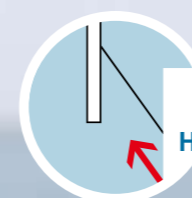

Design-oriented range of fittings for single-rail sliding doors made of glass or wood, with aluminium frame.
